

Science

We will be learning about animals and humans, including how the circulatory and digestive systems work.

Building upon this, we will explore: how do an animal's living systems work together to maintain a healthy body?

DT

We will be taking part in an exciting project with "The Soho Lighting Company" and "Careers Cornwall" to design lighting using recycled plastic which we will collect on a beach clean.

Geography

Independent Inquiry

Children choose an aspect of our oceans and seas topic to focus on and will create a project that includes: a non-chronological report/information text; artwork or models and maps.

RE

Christianity

SALVATION: What did Jesus do to save Human Beings?

We will be looking at the Easter story and how Christian's view Jesus' death.

Maths

We will particularly be developing our multiplicative reasoning skills, implementing what we have been learning about number and fractions into a range of different problems solving situations.

Oceans and Seas

Computing

Coding – we will be exploring the use of variables and lists and operators while using micro:bits.

Music

Perform, describe and compose music around the seas and oceans.

French

We will be developing our fluency when both reading and writing and being confident when speaking.

PSHE/RSHE

We are looking at being healthy and how we can manage our emotions.

English

We are going to be focusing on narrative writing. We will start by looking at describing settings before moving on to looking at weaving the plot.

PE

Gymnastics - Create complex and well-executed sequences that include a full range of movements

Netball/Basketball – We will be learning to field, attack and defend tactically as part of a team.
